

Honda Civic

The following comments are actual comments made by owners of the Honda Civic Hybrid to the authors of this Report. You are invited to submit experiences and general impressions about your hybrid. PROS

General Experiences

"The fuel efficiency gauge helps me drive more efficiently. They should be on every new vehicle!"

Driving Performance

"Its very responsive and has a lot of pep!"

Fuel Consumption

"Not quite as advertised but I still get 700km per tank."

Different Weather Conditions

"I drove through hills in the Rockies, the car had lots of power. The battery started to get drained but it was no problem."

"The car had no problem starting in below zero weather."

Reliability

"I have had no problems with the vehicle. Just get my regular maintenance at the dealership. Although the oil is more expensive than in my old car." CONS

General Experiences

"Can't identify it as a hybrid"
